  venv/bin/python" /Users/joshebchan/PycharmProjects/
  Base de datos/Clonacion.py
2 /Users/joshebchan/PycharmProjects/Base de datos/
  Clonacion.py:24: UserWarning: pandas only supports
  SQLAlchemy connectable (engine/connection) or
  database string URI or sqlite3 DBAPI2 connection.
  Other DBAPI2 objects are not tested. Please
  consider using SQLAlchemy.
3 df = pd.read_sql(query, conn_mysql)
4 ÉXITO: Se creó la base de datos '
  monitoreo_feminicidios' en MongoDB.
5 Se clonaron 1 documentos en la colección '
  casos_detallados'.
